## Overview of comments received

**Table 1: Origin of comments**

**HMPWG – Preamble to the consolidated list of justified homeopathic stocks** as released for public consultation on the HMA website until 11.03.2015

	Organisation and/or individual
1	AESGP
2	ECHAMP

**Table 2: Discussion of comments**

GENERAL COMMENTS		
Interested party	Comment and Rationale	Outcome
AESGP	The title of the document implies that a consolidated list of justified homeopathic stocks exists, but this is not the case. It should be clarified whether such a list is in preparation.	A consolidated list of justified homeopathic stocks is in preparation and will be soon published on the HMA website.
ECHAMP	The title of the document implies that there is one consolidated list of justified homeopathic stocks. But there is no consolidated list.	

SPECIFIC COMMENTS ON TEXT			
Section number and heading	Interested party	Comment and Rationale	Outcome
In Section 2. 'Followed methodology'	AESGP	it is mentioned that "the stocks are justified on the basis of relevant bibliographic references [...] extracted from an electronic database". Could you please specify which database was used?	References mentioned in this database and used to justify the homeopathic use of the stocks are published references accessible by the general public, related to Materia Medica and the traditional provings.
2. Followed methodology	ECHAMP	It is mentioned, that the bibliographic references were extracted from an electronic database. Which database was used?
