

CMDh-IP meeting

20 June 2011

AESGP contribution

Outline

- **Improvement of DCP**
- **Slot booking and cancellation**
- **National translations / national phase**
- **Purely national procedures**

Purely national procedure

- Some AESGP members (manufacturers of well-established herbal medicines) were recently turned down by some Agencies and advised to start MRP/DCP
- Pure national procedure for well-established medicine is possible in virtue of 1998 Commission Communication (98/C229/03).
- CMDh Q&A clarifying this point was unfortunately removed. We would welcome CMDh re-adding the Q&A accordingly.
- Purely national procedures should remain a possibility for applicants
