

# **CMDh-IP meeting 15 November 2010**

**Results of AESGP Survey on Certificates of  
Pharmaceutical Products (CPPs)  
(agenda item 7)**

# Time to receive CPPs from NCAs

# Conclusions & Recommendations

---

- Average times for CPP provision across the EU are between 1-20 weeks, sometimes much longer
  - Reasonable time = 6 weeks
- No correlation between fees and timing
- Importance to CMD(h) & HMA:
  - Long and variable timelines cause unnecessary uncertainty and delays for EU pharma industry
  - Lengthy timelines impact:
    - EU exports
    - Competitiveness of EU pharma industry
- AESGP would like to make the plea for CMDh and HMA to recommend / support 6 weeks for issuance of CPPs across the EU
